Portfolio: rogeravalos.com

Objective

To contribute my strengths and skills to a great company, with ambitions to reach my highest potential.

Education

- San Antonio College - A.A.S. Communication Design
- Red Hat Certified System Administrator

Skills

Software

Very proficient in Adobe Illustrator, Photoshop, After Effects, Premiere and Edge Animate.

Engineering

Very proficient in the following, HTML, CSS, SASS, LESS, SVG, Vanilla Javascript, JQuery, various frameworks (ie: Vue, Vuex, React, Redux, Nodejs, Electron etc.). I keep up to date with many areas of the stack as far as unit testing, task runners, transpilers, bundlers etc.

DevOps

Proficient with various flavors of Linux Systems including RHEL, CentOS, Ubuntu and Fedora.

Professional Experience

Drzzle, LLC

Founder and Engineer [Jan. 2017 - present]

Drzzle is a bootstrapped side project I run (drzzle.app). I built this product using vue and various AWS services. The application is a browser based website builder and in addition to maintaining the code base and design I also oversee the marketing, social media and branding area's of the business.

Rackspace Hosting

Front End Engineer & Designer [Jan. 2016 - present]

I am currently focusing on front end development (html, css, less, sass, javascript, vue, react, storybook) for rackspace.com as well as web applications for our sign ups platform and A/B testing.

I am also responsible for designing page layouts, user interfaces, illustrations, icons, patterns for various elements on Rackspace's global marketing ecommerce team. I also contribute in various areas of the company brand and style guide.

Linux Systems Administrator [Dec. 2012 - Jan. 2016]

I provided overall Linux technical support for dedicated, public and private cloud customers. I managed services and protocols such as Apache, Nginx, Mysql, basic networking, SSH, FTP, IMAP, POP, Plesk, SSL and DNS.

Volunteer / Freelance

Designer & Developer [Dec. 2011 - Jan 2016]

I have been taking on a wide range of projects when I'm available that include UX design, Web Animation as well as Web and App Development. I have volunteered for various organizations including Churches, Texas Linux Fest and local businesses.
